

ORMUS

What is it?

ORMUS is a modern name for the family of materials that were sought by alchemists and sages throughout history to advance humanity's physical & spiritual well-being. In ancient times it was mentioned in Chinese, Hindu, Hebrew and Egyptian alchemical texts as the Elixir of Life, Chi, Biblical Manna, Prana, the Philosophers Stone, Shewbread, & King Solomon's gold. Modern scientists have called it ORMUS, ORMEs, monatomic and m-state. David Hudson rediscovered this "new" state of matter. The ORMUS elements exhibit unusual physical properties like sudden appearance and disappearance, levitation and the movement of ORMUS atoms through other physical objects. Abundantly present in all life forms, its resonant properties are integral to the function of the earth and all its inhabitants. It is present in the food we eat, the water we drink & the air we breathe.

Lecture:

Thursday, Nov. 21, 7:00 - 9:00, \$10 donation

Workshop:

Saturday, Nov. 23, 10:00 - 5:00, \$45

at **Seven Springs Center**
#770 Shelton Cove Rd., Waynesville, NC 28786

with **Barry Carter**

Barry Carter has dedicated his life to the exploration of ORMUS. He travels around the nation giving presentations on its historical context, biological implications, increasing scientific documentation, and practical engineering applications of these extraordinary elements. These presentations include hands-on workshops to involve people with their own experiences of ORMUS. Barry lives in Baker City, Oregon and moderates dozens of local and world-wide online forums on this subject. For ORMUS information on the Web go to:
